

CHELMSFORD AMATEUR RADIO SOCIETY

NEWSLETTER No.229

March 1985

NEXT MEETING

This month we are pleased to welcome W J McClintock, MSc, G3VPK, Executive Vice-President of the Radio Society of Great Britain, who will present a talk on "The activities of R.S.G.B."

His introduction will briefly cover the structure of Headquarters, then he will describe how Council devolves responsibility through Committees, Regional Representatives and Area Representatives also the roll of Volunteer Workers.

Willie is very active in society affairs, as well as being a member of Council he also serves on the Committees for Exhibitions and Rallies, Membership and Representation, VHF, VHF Contests, I.A.R.U. and not least is a member of our own Society!

Willie will be pleased to answer questions.

The meeting begins at 7.30pm, on Tuesday 5th March at the Marconi College, Arbur Lane, Chelmsford.

REPORT ON LAST MONTHS MEETING - DICK G3WHR

We were very pleased to welcome Tony Gilbey G4YTG, who came to enlighten us on a new dimension in aerial design. Big - no, Enormous. After a brief recap on propagation, Tony stated that VLF signals required a vertical antenna. Quite simple, until you realise that the wavelength is approximately 50,000ft. With even a quarterwave somewhat impractical the solution was a loaded vertical with capacity hat.

Thus Tony revealed that at Rugby, the series of 820ft masts and 8ft diameter cages joining them, is just the Capacity Hat, approx: 54pf. All the radiation comes from a single vertical section, helped by a 16ft diameter litz wire loading coil and 80 miles of buried earth mat. Tony described some alternative forms of ULF antennas and a number of slides illustrated some rather specialised components, such as a 22ft long insulator to withstand 54 tons force. Our thanks to Tony for his no-maths presentation. A pity that even with TWELVE 820ft masts; there's no aerial gain !

COMMITTEE MEETING

The next committee meeting will be in the bar of the Marconi College at 7:30pm on Wednesday, 13 March, 1985. Please come and join us for a quiet drink and a chat.

MEMBERS NEWS

The Society extends a welcome to Tom Avery G4MSB. Congratulations go to Brian G6FLI who has passed the CW and is waiting for his new call and to Geff Cockerill who has his old call again G2AMQ.

CLUB NET

The club net continues on Tuesday evenings (7:15pm on S11, 145.275MHz).

JACKPOT RAFFLE

Every time you buy tickets for the regular raffles held at each meeting you automatically get another chance to win the JACKPOT PRIZE which is drawn every few months or so. The last one was drawn at the film night on 8 January, and Les Turner was the lucky raffle patron. He won a book (or books) up to the value of six pounds from the list published in the back of Rad. Com. Keep on buying those monthly raffle tickets!

RSGB NATIONAL VHF CONVENTION

At the last meeting it was asked if anyone was interested in a mini-bus trip to the VHF Convention at Sandown Park Racecourse on Saturday, 23 March 1985. So far only five people have said "yes" (and four of them were on the Committee). If you are interested then please contact John Donnithorne, GBMKX, at the next meeting or by telephone (Chelmsford 353221 Ext.4390 during the day or Witham 515271 at home).

DF NEWS - EVENTS CALENDER - DICK G3WHR

Local events - Friday evenings, 7.30 p.m. start. OS map 168.
